## Problem

- Albanian universities offer so far only **marginal exchange experiences** in the EU area (physical & virtual)
- The **integration of virtual teaching/learning practice** into the concepts of Albanian universities has been insufficient and should be improved

## Solution

- **Virtual Mobility** based on technology-supported **blended collaborative learning activities** as a flexible effective element for Internationalisation at Home
- Improving the **visibility, implementation** and volume of **virtual exchange** experiences

## Measures

- Qualification of academic staff at Albanian HEIs on **modern pedagogical and didactical methodologies** for innovative virtual teaching and learning settings.
- Support Albanian HEIs in adopting and implementing effective ICT-based **internationalisation at home** activities and integrate Albanian HEIs in a global network for “Virtual Mobility”.
- Qualification of administrative staff at Albanian HEIs on adopting and recognising **Virtual/Blended Mobility** as part of their institutional internationalisation strategy.
